

## Design Pattern Relationships

Stop chasing after  
people and being the  
only one trying to fix  
everything. It's  
mentally and physically  
exhausting. You have to  
find peace with whoever  
comes and goes from your  
life. Don't be the only  
one putting in effort  
because you will end up  
losing yourself trying  
to save everyone else.
